

NA3338/3330 RAPID

THE FASTEST SOFT-SERVE MACHINE WITH OPTIMUM FLEXIBILITY!

The Nissei NA 3338/3330 RAPID combines high performance with compact dimensions, so this soft-serve ice cream machine can be put to work anywhere!

With this model you can treat your clients to delicious soft-serve ice cream, with a very high overrun to bring you the maximum return on your soft-serve product. It has a capacity of 55 liters per hour, and its double-walled, 2.5 liter freezer cylinder means it can deliver high performance even at peak times. That makes this machine unique in its class!

Nissei soft serve machines are known for their high capacity, compact size, quiet operation, low maintenance costs, long lifespan and ease of use. All machines come equipped with an energy-saving pasteurization system and require disassembly just once every 6 weeks.
