

NA9420 G SMALL ICE

THE SMALLEST IN ITS CLASS!

The Nissei NA 9420 is the smallest soft-serve machine in its class. It has a capacity of 30 liters per hour and makes a delicious soft ice cream with an especially firm consistency.

This Nissei machine is constructed without a pump, making cleaning a snap. Nissei also offers this popular model in a self-service version. The automatic return plunger and the bypassable control panel make tapping their own ice cream easy and fun for all your customers!

Nissei soft serve machines are known for their high capacity, compact size, quiet operation, low maintenance costs, long lifespan and ease of use. All machines come equipped with an energy-saving pasteurization system and require disassembly just once every 6 weeks.

THE MANY ADVANTAGES OF A NISSEI TABLETOP SOFT-SERVE MACHINE

- Extremely compact, just 29 cm wide
- Small upper tank ensures fresh product
- Large freezer cylinder for high capacity
- Unique 5-year guarantee on high-quality parts
